SARATOGA

THE WATER OF THIS SPRING IS BELIEVED TO be unequalled by that of any other in the far-famed valley of sarstoga. Its virtues are such as have secured it the high encomiums of all who have used it, possessing, as it does, in an eminent degree, cathartic, diurctic, alterative and tonic qualities.

From SAMUEL HENRY DICKSON, M. D., Professor Practice of Physic, Jefferson Medical College, Philadelphia, formerly of Charleston S. C.

I have been for a year or more past in the habit of taking the water of the "Excelsior" Spring of Saratoga. Accustomed during the great portion of my invalid lite to use the different waters of the several fountains which solid up along that remarkable valley, dependent, indeed, upon them for much of the comfort I enjoy, I am satisfied that the Excelsior Water is as well adapted as any other among them, if not more so, to the purposes for which they are generally employed. It is very agreeable, strongly impregnated with the carbonic acid, lively and sparking.

* * I can heartly and conscientiously recommend it to all who need a gentle catharine and diaretic.

I hate these roses' feverish blood! Pinck me a half-blown lily-bud. A long stemmed lily from the lake, Cold as a colling water make.

Rain me sweet odors on the air, And wheel me up my Indian chair, And spread some book not overwise

Who knows it not—this dead recoil

Among the chief points of excellence of the Chicksting Planos, of which speak the renowned artists in their congratulatory testimonials to the Measura Chickering, are the greatest possible depth, richness and volume of tone, combined with a rare brilliancy, clearness and perfect evenness throughout the entire scale; and, above all, a surprising duration of sound, the pure and sympathetic quality of which never changes under the most delicate or powerful touch.
